LEAK FREE SHOWER ENCLOSURES

WALK-IN BATHS

Neptune Bathing was formed in 2009. The company's first product was the Leak Free Shower Enclosure. This came about due to the recognition of a very common problem: Leaking Showers!

Most showers leak at some stage in their lifetime, the damage can be quite expensive and difficult to fix. The only real solution, is a Leak Free Shower Enclosure.

Neptune Bathing is the market leader in Leak Free Shower Enclosures.

Easy to install and maintenance free,
LEAK FREE for life.

Our customers say it best..

Best thing ever. No water gets through the wall so none of the problems related to that. I have a 1200 X 900 now over 3 years. Still looks like new due to the finish of the unit.

Mark Gunian, Homeowner.

They are a great product. For one thing they don't leak and secondly they look great. From my point of view and from the customers too the speed in which you can install them is a huge advantage. The turn around time is one day. Much quicker than tiles and tray and no trouble later. I am more than happy to recommend them to any of my Customers.

Aidan Kennedy, Craig Contracts, Dublin.

We install Neptune Leak Free Enclosures in all our developments including Lakeside in Coleraine and Garrow Hill in Moneymore. They deliver on their promise of no leaks and a hassle free installation. They are easy to clean and hygienic and because of that our customers love them.

Seamus Feighan, Site Manager.

LEAK FREE SHOWER ENCLOSURES

OUR RANGE OF SIZES

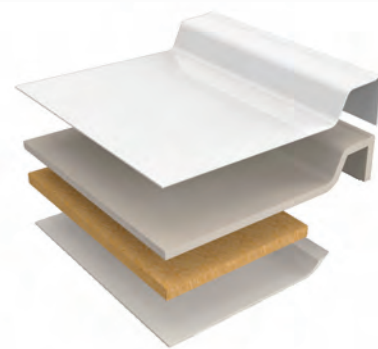

- 800mm Quad and Square
- 900mm Quad and Square
- 800mm 3 sided Alcove
- 900mm 3 sided Alcove
- 1000mm x 800mm 3 sided Alcove
- 1200mm 3-sided Alcove
- 1200mm x 800mm Rectangular Left & Right

- 1200mm x 900mm Rectangular Left & Right
- 1200mm x 900mm Offset Quad Left & Right
- Bespoke sizes also available for quantities

Most leaks happen where the wall and tray are joined. Our product is moulded and has no join at the back of the tray.

NO JOIN = NO LEAKS

WHAT'S IT MADE OF ?

Surface is an Isophthalic, Anti-bacterial Gel. This gives it excellent physical strength properties, excellent handling characteristics, easy clean, high heat resistance and outstanding corrosion resistance. Behind the surface coating is a high-end GRP (Glass Reinforced Polymer) of a grade normally only used in Ocean-Going Yachts. This will ensure many, many years of trouble free, water resistant showering.

Behind the GRP is a special Resin Infused Particle Board. This gives the product extra rigidity and strength and allows for the shower doors, valves and additional accessories to be attached directly to the unit without having to go through to the wall behind. Behind the RIPB is another coating of GRP. This encapsulates the entire unit and makes it impregnable to moisture.

Enhance your bathroom
with real luxury...

LEAK FREE SHOWER ENCLOSURES

WALK-IN BATHS

The future of showering is here

*A modern, low level tray
for ease of entry,
with no compromise
on water retention*

*Available in 2 or 3 part
systems for easy access
to your bathroom*

Also available with
Leg-Lifting-Kit and Fascia

Feel younger with our walk-in baths...

Our micro-bubble system creates a white-water effect with millions of tiny bubbles exploding against your skin and hair follicles for a really deep clean.

WALK IN BATHS

Our new Micro-Bubble Spa System is the very first in Ireland and the UK. The millions of micro-bubbles explode near the skin for a really deep clean. This is especially good for skin conditions such as Eczema and Psoriasis.

Makes you feel
relaxed, refreshed
and younger...

Built on a sturdy Stainless Steel frame, we have a non-porous acrylic shell which resists mould, stains and wear spots.

The design allows for easy access for wheelchair users as transferring across onto the seat is unrestricted.

The door lock is very easy and safe to operate. Lock and seals come with a lifetime guarantee.

At 840cms we have the widest door available making it so easy to access for persons with severe mobility problems.

Why not relax in a luxurious, deep-water Neptune Walk-in Bath?

Step inside the wide side door, make yourself comfortable on the moulded, contoured seat and sit back fully supported. Enjoy warm spray jets, with millions of micro-bubbles exploding against your skin. Mood lighting and music if you choose. Heaven.
